1. Introduction and Overview

Rationale
The purpose of this policy is to:

- Set out the key principles expected of all members of the school community at St Teilo's Catholic Primary School with respect to the use of COMPUTING-based technologies.
- Safeguard and protect the children and staff of St Teilo's Catholic Primary School and comply with GDPR (General Data Protection Regulation).
- Assist school staff working with children to work safely and responsibly with the internet and other communication technologies and to monitor their own standards and practice.
- Set clear expectations of behaviour and/or codes of practice relevant to responsible use of the internet for educational, personal or recreational use.
- Have clear structures to deal with online abuse such as cyberbullying which are cross referenced with other school policies.
- Ensure that all members of the school community are aware that unlawful or unsafe behaviour is unacceptable and that, where appropriate, disciplinary or legal action will be taken.
- Minimise the risk of misplaced or malicious allegations made against adults who work with students.

The main areas of risk for our school community can be summarised as follows:
Content

- ignoring age ratings while playing online games (exposure to violence associated with often racist/foul language, addiction, in-app purchases)

- exposure to inappropriate content, including online pornography,

- Ignoring age restrictions on social networking websites such as Instagram, Facebook, YouTube, Snapchat, WhatsApp and other apps.

- Data breach

- hate sites, sites inciting radicalisation and/or extremism

- content validation: how to check authenticity and accuracy of online content

Contact

- grooming

- cyber-bullying in all forms

- identity theft and sharing passwords

Conduct

- privacy issues, including disclosure of personal information

- digital footprint and online reputation

- health and well-being (amount of time spent online (internet or gaming)

- Copyright (little care or consideration for intellectual property and ownership – such as music and film)

This policy applies to all members of St Teilo's Catholic Primary School community (including staff, students/ volunteers, parents / carers, visitors, community users) who have access to and are users of St Teilo's Catholic Primary School COMPUTING systems, both in and out of St Teilo's Catholic

Primary School.

The Education and Inspections Act 2006 empowers Head teachers / Principals to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the *school / academy* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the school / academy, but is linked to membership of the school / academy. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

St Teilo'Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.
